*Article by Corwin Bell*

Alessandro from Italy pulling a drawn-out comb from his Cathedral Hive!! He installed the bees early this spring and they are already churning out combs! This is so rewarding to see Cathedral Hives all over the world populated with bees!

*(Photo credit: Alessandro., Italy)*

Alessandro from Italy pulled a Cathedral Hive comb. The top is capped pollen, the middle orange cells are pollen and then the bottom is brood and empty cells

*(Photo credit: Alessandro., Italy)*  
Alessandro pulling a huge Cathedral  
Hive comb! The brood and honey  
proportions looks great!

*(Photo credit: Alessandro., Italy)*  
Alessandro's Cathedral Hive Living  
Roof, looks beautiful!
